

Happy Summer!

For many of us, the summer is a time for vacations and family gatherings. For others, the summer is just too darn HOT. Here at Universal Hearing Care we want to make sure your hearing aids are in tip top shape and you are hearing optimally all year long.

The extreme heat and unusual humidity that we seem to be experiencing can have an effect on your hearing aids. If you currently wear hearing devices, let's make sure we get you in this summer for a checkup. We've included some tips in this newsletter on keeping your devices clean and dry.

If you are still struggling with your hearing, let's make this a summer to remember. We have so many new devices to offer that could make a big difference in your life. If you are not sure if hearing aids are for you, check out our website at universalhearingcare.com for our new video testimonials. You will see a few of our patients talk about what a difference their hearing aids have made in their lives.

Don't delay, Call now (818) 345-3200 to schedule your checkup. A happy hearing aid means happy hearing. (Oh dear, is that corny or what!)

Have a GREAT summer

Sincerely,

Lisa Goldstein and all of us at Universal Hearing Care
